

## RELAUNCH: TURBOCHARGERS

New Service Concept. Extended Range of Applications and EconX® variants.

**Knorr-Bremse TruckServices is constantly working to improve its product portfolio and service concepts in line with customer and market requirements to optimize coverage of the various vehicle applications and regional differences.**

Since 2019 Knorr-Bremse TruckServices has been offering a wide range of turbochargers from all well-known manufacturers for light to heavy commercial vehicles. At the beginning of 2020, Knorr-Bremse TruckServices is relaunching its turbocharger portfolio. In addition to a revised service concept that is better tailored to the market needs, new products and an expanded EconX range round off the range.

## REVISED SERVICE CONCEPT

Depending on the type of damage, it may be necessary to replace the seals and gaskets in some cases when replacing a turbocharger. Knorr-Bremse TruckServices has therefore revised its service concept and now offers the corresponding gasket kit separately for a large number of its turbocharger range. This allows the customer to decide on a case-by-case basis whether or not to purchase the kit in addition to the turbocharger. Knorr-Bremse TruckServices now offers more than 150 kits.
